Chapter 2

Illumination

DEAG8G

The best way to win is the lack of tension.

A.P.J. Abdul Kalam

Learning Objectives

In this lesson, students will get to know the various terms regarding illumination and can easily understand the concept of light. Various types of lighting systems and their uses are given. One of the main objectives is the study of various types of lamps and their merits and demerits. According to new trend, it is necessary to know the various types of lights used in shops, industries, streets and in homes. Students have to know, what are the factors to be considered, while designing good lighting system. This is the right time to think for saving electrical energy by using low wattage bulbs like CFL, LED by adopting new techniques.
