

Activity 1

Collect pictures of special glasses and prepare an album

2.3.1 Properties of glass

1. It absorbs, refracts and transmits light.
2. It can take up a high polish.
3. It has no definite crystalline structure.
4. It has no sharp melting points.
5. It is an excellent electrical insulator.
6. It is available in beautiful colours.
7. It is usually unaffected by air or water.
8. It has excellent resistance to chemicals.
9. When it is heated, it becomes softer and ultimately transformed into liquid.

2.3.2 Uses of glass as building material

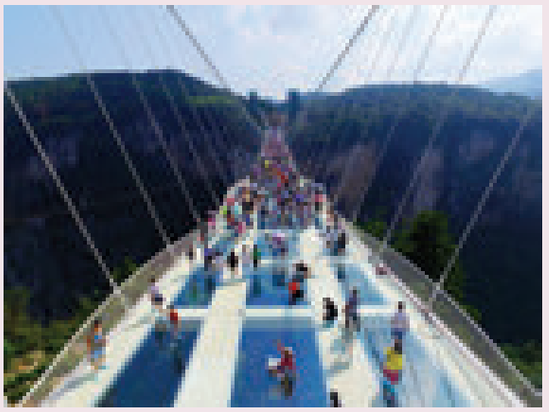

1. Glass can be used for window panels.
2. Glass blocks can be used for partitions.
3. Structural glass can be used for insulation, panel walls, wall facings enclosures, etc.
4. Potash lead glasses are used for making electric bulbs.
5. Tinted glass can be used for decorative glass works.
6. Fibre glass reinforced plastics can be used to construct furniture, lamp shades and bathroom fittings.

DO YOU KNOW?
