(i) Types of levelling staff

Based on the method of taking reading, the levelling staffs are divided into two types

1. Self reading staff (or) direct reading staff
2. Target staff

1. Self reading staff

In this type of staff the observer takes the reading directly on the staff by looking through the telescope.

Self reading staff

Based on the method of construction self reading staffs are further divided into 4 types.

- Solid staff
- Folding staff
- Telescopic staff
- Invar precession staff

2. Target staff

In this type of staff the observer sights the target and directs the staffman to move the target upward (or) downward until it bisects the line of sight exactly.

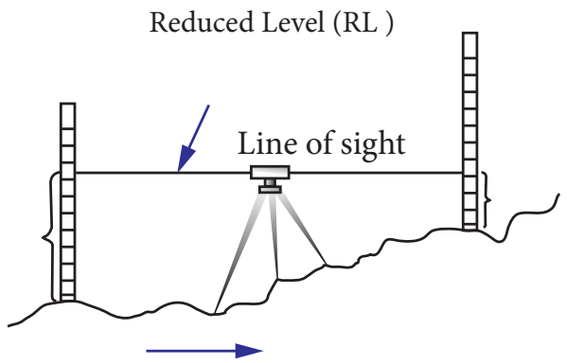

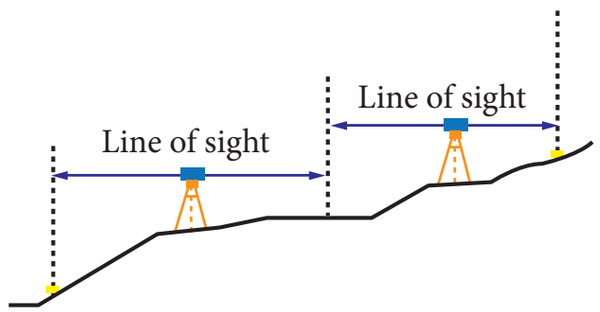

Target levelling staff

3.3.8 Reduction of Levels

Reduction of level means reducing the elevation of a point from the observed staff reading. It can be done by two methods

a. Height of collimation method
b. Rise and fall method
