Table of Contents

5.1 Introduction

5.1.1 Purpose of Sanitation

5.1.2 Terms used in Sanitation

5.2 Collection and Conveyance of Refuse

5.2.1 Systems of Sanitation

5.2.2 Systems of Sewerage

5.3 Quantity of Sewage

5.3.1 Dry Weather flow

5.3.2 Storm Water

5.4 Constructions of Sewers

5.4.1 Shape of Sewers

5.4.2 Gradient of Sewers

5.4.3 Laying of Sewer lines

5.4.4 Testing of Sewers

5.4.5 Ventilation of Sewers

5.4.6 Cleaning of Sewers

5.4.7 Sewer appurtenances

5.5 Quality of Sewage

5.5.1 Properties of Sewage

5.5.2 Analysis of Sewage

5.6 Treatment of Sewage

5.6.1 Primary treatment

5.6.2 Secondary Treatment

5.6.3 Tertiary Treatment

5.7 Septic Tank

5.7.1 Construction and Working of Septic tank

5.8 Sludge Disposal

5.8.1 Quantity of Sludge

5.8.2 Methods of Sludge disposal

5.9 Solid Waste Management

5.9.1 Solid wastes

5.9.2 Classification of Solid waste

5.9.3 Disposal of Solid wastes

5.9.4 Methods of Solid waste disposal

5.10 Pollution Control

5.10.1 Land Pollution

5.10.2 Water Pollution

5.10.3 Air Pollution
