And we update the corresponding test in test/controllers/carts_controller_test.rb:

rails80/depot_i/test/controllers/carts_controller_test.rb

```
    test "should destroy cart" do
»     post line_items_url, params: { product_id: products(:pragprog).id }
»     @cart = Cart.find(session[:cart_id])
»
      assert_difference("Cart.count", -1) do
        delete cart_url(@cart)
      end

»     assert_redirected_to store_index_url
    end
```

Now when we view our cart and click the Empty Cart button, we're taken back to the catalog page and see the message shown in the screenshot.

We can remove the flash message that's autogenerated when a line item is added:

rails80/depot_i/app/controllers/line_items_controller.rb

```
    def create
      product = Product.find(params[:product_id])
      @line_item = @cart.add_product(product)

      respond_to do |format|
        if @line_item.save
```
