```
    check:
      routing_number: "# de Enrutamiento"
      account_number: "# de Cuenta"
    cc:
      cc_number: "Número"
      expiration_date: "Expiración"

  po:
    po_number: "Número"
```

See the following screenshot for the completed form.

All looks good until we click the Realizar Pedido button prematurely and see the results shown in the following screenshot.
