```
      name:      "Nombre"
      email:     "E-mail"
      pay_type:  "Forma de pago"
```

Note that there's no need to provide English equivalents for this, because those messages are built into Rails. We're pleased to see the model and attribute names translated in the following screenshot; we fill out the form, we submit the order, and we get a "Thank you for your order" message.

We need to update the flash messages and add the locale to the store_index_url:

rails80/depot_u/app/controllers/orders_controller.rb

```
    def create
      @order = Order.new(order_params)
      @order.add_line_items_from_cart(@cart)

      respond_to do |format|
        if @order.save
          Cart.destroy(session[:cart_id])
          session[:cart_id] = nil
          ChargeOrderJob.perform_later(@order, pay_type_params.to_h)
»         format.html { redirect_to store_index_url(locale: I18n.locale),
»           notice: I18n.t(".thanks") }
          format.json { render :show, status: :created,
            location: @order }
```
