```
    assert_difference("Product.count", -1) do
      delete product_url(@product)
    end

    assert_redirected_to products_url
  end
```

And change the fixture to make sure that product two is in both carts:

rails7/depot_f/test/fixtures/line_items.yml

```
# Read about fixtures at
# https://api.rubyonrails.org/classes/ActiveRecord/FixtureSet.html

one:
»   product: two
    cart: one

two:
  product: two
  cart: two
```

We'll have more to say about intermodel relationships starting in *Specifying Relationships in Models*.
