RSpec is designed this way, as well as why you might want to use it, are nuanced and beyond the scope of this book. The main point all this proves is that you can replace a major part of Rails with an alternative and still get all the benefits of the rest of Rails. It's also worth noting that RSpec is popular, and you're very likely to see it in the wild.

Let's learn more about Rails' configurability by replacing another major piece of Rails—ERB templates.
