Step 14. Add users links to navigation bar

Let’s add user links to the navigation bar. Add this piece of code to app/views/layouts/application.html.erb:

```
...31
<ul class="nav navbar-nav navbar-right">
  <li class="dropdown">
    <a href="#" class="dropdown-toggle" data-
toggle="dropdown" role="button" aria-haspopup="true" aria-
expanded="false">Profile <span class="caret"></span></a>
    <ul class="dropdown-menu">
      <li><%= link_to "Edit profile",
edit_user_registration_path %></li>
      <li><%= link_to "Sign up", new_user_registration_path
%></li>
      <li><%= link_to "Login", new_user_session_path %></li>
```
