```
      <li role="separator" class="divider"></li>
      <li><%= link_to "Logout", destroy_user_session_path,
method: :delete %></li>
    </ul>
  </li>
</ul>
..44
```

Reload your browser.

Step 15. Hide links from users that are not logged in

In the top right corner of the navigation bar, we have the Profile tab. When you expand it, you will see more tabs:

Thanks to Devise, we can restrict which tab will be visible for logged and not logged in users. To verify if a user is signed in, we will use the following Devise helper: `user_signed_in?`

Let's modify the app/views/layouts/application.html.erb file:

```
...35
<% if user_signed_in? %>
  <li><%= link_to "Edit profile", edit_user_registration_path
%></li>
<% else %>
  <li><%= link_to "Sign up", new_user_registration_path %></
li>
  <li><%= link_to "Login", new_user_session_path %></li>
<% end %>
<% if user_signed_in? %>
  <li role="separator" class="divider"></li>
  <li><%= link_to "Logout", destroy_user_session_path,
method: :delete %></li>
<% end %>
...46
```

Now, let's reload your browser. After that, you will see that when you expand the Profile tab, only two tabs will be
