1.3 inspect

Another useful method for displaying object values is inspect, especially when working with arrays or

hashes. This will print the object value as a string. For example:

Will render:

2 The Logger

It can also be useful to save information to log files at runtime. Rails maintains a separate log file for each runtime environment.

2.1 What is the Logger?

Rails makes use of the ActiveSupport::Logger class to write log information. Other loggers, such as Log4r, may also be substituted.
