```
(byebug) task_params
<ActionController::Parameters {"name"=>"Ruby Debug",
"due_date"=>"2016-01-18 21:37:57 UTC"} permitted: true>
```

# Step 13

The next command runs one or more lines of code. Type n for the next command.

```
(byebug) n
```

```
[25, 34] in /Users/bparanj/projects/blog5/app/controllers/
tasks_controller.rb
   25:   # POST /tasks.json
   26:   def create
   27:         byebug
   28:     @task = Task.new(task_params)
   29:
=> 30:     respond_to do |format|
   31:       if @task.save
   32:         format.html { redirect_to @task, notice: 'Task
was successfully created.' }
   33:         format.json { render :show, status: :created,
location: @task }
   34:       else
(byebug) @task
#<Task id: nil, name: "Ruby Debug", complete: nil,
created_at: nil, updated_at: nil, project_id: nil, priority:
nil, due_date: "2016-01-18 21:37:57">
```

We go to the next line.

# Step 14

To quit the debugging session, type quit.

```
 quit
Really quit? (y/n) y
```
