Setup

Replace IRB with Pry (in your Gemfile) and Byebug with `pry-byebug`.

```
gem 'pry-rails', group: [:development, :test]
gem 'pry-byebug', group: [:development, :test]
```

Using PRY

Put `pry` somewhere in your code to start pry session

```
def my_method
  pry
  ...
end
```

Common commands

- Show method source

```
pry> $ object.method
# or class instance method
pry> $ Class#method
# or class static method
pry> $ Class.method
```

- Show method docs

```
pry> ? object.method
# or class instance method
pry> ? Class#method
# or class static method
pry> ? Class.method
```

- Show object methods and instance variables

```
pry> ls object
# or only public methods
pry> ls -m object
# or grep by name
pry> ls -G has_ object
```
