after its ingestion. After some time, it may stimulate acid production because of high calcium content. Therefore, use of milk should be limited. It gives relief for short period only. Proteins from egg, chicken, cheese and fish is beneficial for regeneration of tissue.

Fat

Fats delay the gastric emptying. Poly unsaturated fatty acids have been found to be effective against duodenal ulcer by inhibiting the growth of Helicobacter pylori. Around 25-30g of visible fat may be given to the patient. Fried foods should be avoided.

Carbohydrate

Carbohydrates should provide around 55-65% of the total calories. Simple and Complex carbohydrates can be consumed in soft well-cooked form.

Fibre

Low fibre may be given for the patient. Soluble fibre is more beneficial than insoluble fibre. The presence of fibre in the diet is preferred because it delays gastric emptying time and hence prevents the mucosal damage by acidic gastric juice. The fibre requirement is around 20g per day for the patient.

BLAND DIET!

Mechanically irritating foods

Foods which contain indigestible carbohydrates or roughage;

Eg. Whole grains, Raw vegetables and fruits

Chemically irritating foods

Foods which have a stimulatory effect on the gastric secretions;

Eg. Alcohol, Meat extracts, Caffeine, Spicy foods, Chillies, garlic Powder.

Thermally irritating foods

Foods which are consumed at extremely hot or cold temperatures;

Eg. Hot broths or soups, Iced liquids.

Bland diet

A diet which contains mechanically, chemically and thermally non-irritating foods that are generally soft, well cooked, low in dietary fibre and not spicy.

	• Coffee or Tea
	• Alcohol

HOME REMEDIES

For Peptic Ulcer

- Raw Cabbage juice is an old folk remedy for ulcers.
- Banana powder has been used to treat ulcers in India

8.2 LIVER DISORDERS

Liver is the largest gland in the body weighing around 1500g. The liver has the ability to regenerate itself. Approximately 1500ml of blood per minute circulates through the liver and exits via left and right hepatic veins. The liver is integral part of all metabolic functions in the body.
