b) Full fluid diet :

Full Liquid Diet

Definition:

- All Foods that are liquid are liquid at room temperature, It provides more Calories than the clear liquid diet, but is still liquid in the stomach and intestinal tract which is essential for patients who cannot chew or swallow solid foods.

Indication:

- For the postoperative patient
- Gastrointestinal illness

This diet bridges the gap between the clear fluid and soft diet.

This diet is given in

- the post operative stage
- acute gastritis
- acute infection
- diarrhea
- when the patient does not require a special diet, but are unable to chew solid or semi-solid foods .

The purpose of this diet is to provide an oral source of fluid for individual & who are incapable of chewing, swallowing & digesting solid foods. It is used as an intermediate progression to solid foods following surgery in conjunction with parental nutrition or in the presence of chewing or swallowing disorder or certain procedures such as jaw wiring. It is also used in the presence of oesophageal or gastrointestinal stiches, during moderate gastro intestinal inflammation and for acutely ill patients. Solid foods are completely not used.

Recommended food items:

- Soups and broths.
- Cereal porridges (refined cereals)
- Milk and milk beverages, yogurt
- Coffee, tea, fruit juices, carbonated beverages.
- Butter, cream and oil added to foods.
- Plain puddings, custard, ice cream, jelly.
- Sugar, honey, salt and mild flavorings.

The nutrient composition of the diet will depend upon the type and amount of liquids, the patient can consume. The diet is low in iron, vitamin B12, vitamin A and thiamine. Liquid nutritional supplements or blended foods could be added to improve nutritional adequacy. The feeds are usually given at 2- 4 hours intervals. This diet gives 1200kcal and 35g of protein. The diet can be made adequate for basic maintenance by careful planning.

c) Pureed diets:

A pureed diet refers to all foods blended in a blender. It is also called **"Blenderised diet".** It includes regular foods blended and strained in liquid form and all foods allowed in clear and full liquid diets. Vitamin and mineral supplements may be needed with this diet if the recommended amount of food are not taken.

Butter milk

Custard

Cream soup

Ragi kanji
