while in possession of incriminating documents that would link him to the assassination. Yet he left it behind for the SIT? IO Ragothaman was of the opinion that the LTTE believed in publicity and that Sivarasan leaving his diary behind was proof of that. Sivarasan knew that the contents of the diary would not lead the sleuths to him. It would, however, link him to the assassination. But he perhaps didn't care.

Raju went through the diaries of Sivarasan for days and deciphered how Sivarasan had masterminded the assassination with meticulous planning and executed it with clockwork precision. It revealed the network of the LTTE that worked on the assassination, right from Jaffna to Tamil Nadu to New Delhi to London. From plan A to plan B to even a plan C. From critical information on Tamil Nadu politics to who all from among them could be of help—the DMK and its ally parties. From friendly pressmen to those who were hostile to the LTTE's cause. The diary also confirmed his other name—Packiachandran. It also showed that the LTTE supremo Prabhakaran liked to address him by a shorter version—Pakia. One part of the diary corroborated what Athirai and Kanagasabapathy had said in their confessions to Kanth. Sivarasan had indeed noted down an alternative plan to killing Rajiv. In fact, Athirai was the first human bomb to have landed in India, more than a month before the arrival of Dhanu and Shubha. The curly-haired young girl made a clandestine arrival at Kodikkarai in Vedaranyam. This was the same place where Sivarasan had arrived with his nine-member hit squad. The girl was taken to a hideout in Madras, where Sivarasan had introduced her to Kanagasabapathy. They were to go to Delhi together by train.

Raju confronted Kanagasabapathy with the entries Sivarasan had made in his diary. The old man admitted that he had visited the capital and met a fellow LTTE member, along with a politician from Tamil Nadu. They had introduced him to a real estate broker who got him a house that would substitute for a hideout if and when Sivarasan arrived—the same two-room
