LTTE's wounded cadres seeking treatment in India, their movements, settlement and safety. He was impressed with Vicky's dedication. He took him as his assistant in mid-1990 and paired him with Dixon. Vicky handled wounded LTTE cadres in hideouts in Trichy and Dixon sent coded messages from Trichy Santhan to Jaffna.[1]

Trichy Santhan shifted Vicky and Dixon to Coimbatore. Vicky was thoroughly briefed on how to assist Dixon in managing Sivarasan's movements in case Trichy Santhan wanted to send the mastermind to Coimbatore. Sivarasan was not alone. Shubha and Nero were with him. In his interrogation, the twenty-two-year-old admitted that working for 'Sivarasan anna' would have been a matter of pride for him.

There was a third associate—Guna—who specialized in obtaining explosives from Indian sources. Vicky confessed to the Coimbatore Police that he was witness to Dixon and Guna making plastic bombs, grenades and grenade shells, but Vicky never got involved in procuring explosives for bombs. However, Dixon sent hand grenades in large numbers concealed in cartons of medicine through Vicky to Jaffna via secret routes. Their activities ran smoothly until the assassination. Indian security agencies tightened their nets around LTTE activists and sympathizers after the assassination. The state police was on the lookout for Sri Lankans who did not possess passports and visas, and made it compulsory for landlords to report such matters to the police. They could not rent out their place to a Sri Lankan national without police verification.

But money did the talking. Vicky succeeded in renting houses where he could keep grenades and explosives from Dixon. He kept moving Guna and Dixon from one place to another. The LTTE was in desperate need of hand grenades and explosives. But with increasing security on the Palk Strait, Jaffna was reluctant to accept more consignments. As a result, the inventory in Coimbatore was swelling. Where to store them was Vicky's biggest concern. A local real estate broker, Vijay, agreed to take a house in his own name and help Vicky. Of course, for a hefty consideration. Both fell into the police dragnet.
