Kaarthikeyan was not around while his junior kept pleading for permission to catch Sivarasan alive.[10]

Meanwhile, the tracking team and the Bangalore Police were engaged in examining options other than storming the house, which would invariably provoke Sivarasan and gang to bite the cyanide capsules. Sending a milk vendor or Mridula as a decoy was considered and immediately rejected—the fugitives were already on alert after Ranganath, Mridula and Rangan's disappearance. Another option was adding sedatives to the water supply. But maybe they would have water stored in the refrigerator and not drink from the water supply. So this idea was dropped too. The only feasible option was to storm the house. The Black Cats were asking for fifteen to thirty seconds, within which they said they would capture Sivarasan and administer the antidote shots to him. The fugitive could then be transferred in their MI-8 helicopter to the nearest hospital. The plan was presented before the commissioner of police. He said there was no permission to allow helicopters to fly in the area—it would be a violation of the state's Low Flying Annoyance Act. Ravindran tried to intervene. 'Sir, we never had to take permission for a rescue act by a helicopter in an emergency situation,' he said. But the commissioner just gave him a polite smile in reply.

Sri Kumar suggested that the local police could alert the nearby hospitals to get ready for treating 'cyanide-poisoning patients' and also keep the road to the hospitals cleared of traffic. But nothing was done. Most of the police officers felt that Sivarasan would take the lives of many in their force before choosing to die by suicide. To that, Ravindran made a promise—his team alone would handle the operation and the Bangalore Police personnel need not come close to the hideout. The Black Cats were dying to give the plan a shot. Commissioner of Police Ramalingam intervened again and asked Ravindran to wait till further orders, and left the room. The DCP Crime, on a personal note, apologized to Ravindran—he could not overrule the 'bosses', he said.

The entire day passed without any action. But suddenly a log-laden lorry broke down on a muddy patch about fifty metres from Sivarasan's hideout.
