SIT looked for whatever evidence was left behind. One was a sheet of paper from Sivarasan—it was a poem in Tamil in the mastermind's own handwriting, where he had glorified Prabhakaran and the flag of liberation (Eelam) while urging the Tamils of the world to wake up and strengthen the leader's fight to win freedom. None of the investigators ever had any doubt about Sivarasan's loyalty and dedication to the cause of the Tamil movement. And he had fought until his last breath for it.[14]

For Anirudhya, an end like that was a setback. Not that he had expected to get an opportunity to interview Sivarasan in person after his arrest, but, as a reporter who had been with the sleuths all through the investigation, such a concluding chapter was a bit of an anticlimax. Later at night, over a drink, Verma had tried to cheer him up. 'This is just the beginning of unfolding the larger conspiracy. The big players of the drama will now be unmasked.' In fact, for some of the officers, the deaths were not a setback. They never believed catching Sivarasan alive was possible.
