Death (Manchester University Press, 1994). On the identity of the plague, see Graham Twigg, *The Black Death: A Biological Reappraisal* (Schocken Books, 1985), and Susan Scott and Christopher Duncan, *Biology of Plagues: Evidence from Historical Populations* (Cambridge University Press, 2001). Useful analyses of the plague's aftermath include Samuel K. Cohn, *The Black Death Transformed* (Arnold Publishing, 2002) and David Herlihy, *The Black Death and the Transformation of the West* (Harvard University Press, 1997).
