recommended to see the samurai initially as a high-ranking warrior in service to a master. To think of a samurai as a Japanese knight is a helpful analogy." See *The Samurai: A Military History* (1977), pp. ix and following.

* Shirakawa's younger brother died before he could take the throne, and Shirakawa's own son became heir; he inherited the throne in 1087 as Emperor Horikawa. Because Horikawa was the son of a Minamoto mother, though, Go-Sanjo's intentions were carried out. Horikawa died in 1107 at the young age of twenty-eight, before he was able to abdicate in favor of his young son Toba; so when Toba was coronated, Shirakawa continued to serve as Cloistered Emperor.

* Both the Hogen Incident and the Heiji Disturbance, three years later, were named after the eras in which they occurred. In Japan, a new era was often declared when a new emperor was crowned (the Hogen Era began with the coronation of Go-Shirakawa; the Heiji Era began with Emperor Nijo), but a catastrophe, triumph, or new discovery might also be marked with a new era name.
