21. Confident policymakers work in the open
22. Criticism and conflict have great value
23. Coming out right, always, is too high a bar
24. A country is not a company
25. System thinking
26. Beware the rule of officials

Part V: The public policy process

27. Policymaking is siege-style assault
28. Choosing from pillars of intervention
29. Walk before you can run
30. Low state capacity changes policy design
31. Rolling up your sleeves to build state capacity
32. Dealing with constraints in information
33. Investing in knowledge institutions

Part VI: Applying these ideas: some examples

34. Building the perfect GST in a low-capacity state
35. Health policy
36. Financial economic policy
37. Dealing with macroeconomic and financial crises

Part VII: Parting words

38. Do no harm
39. Prioritize institution building over just GDP growth
40. Conclusion
