If elseif else statement in PHP:

If-elseif-else statement is a combination of if-else statement. Here multiple conditions can be checked and action is based on the result of the condition.

Syntax:

```
if (Condition 1)
{
  Statement(s) if condition 1 is true;
}
elseif(Condition 2)
{
  Statement(s) if condition 2 is true;
}
else
{
Statement(s) if both conditions are false;
}
```

The if.. elseif.. else is also known as if.. else ledder as if lets us chain together multiple if... else statements allowing the programmer to define actions for more than just two possible outcomes.

Example:

```
<?php
$Pass_Mark=35;
$first_class=60;
$Student_Mark=70;
if ($Student_Mark>= $first_class){
echo "The Student is eligible for the promotion with First Class";
}

elseif ($Student_Mark>= $Pass_Mark){
echo "The Student is eligible for the promotion";
}
else {
echo "The Student is not eligible for the promotion";
} ?>
```
