

10.2 History of Computer Networking and the Internet

The history of computer networks and its development were briefly explained in the table given below:

Table 10.1 History of computer Networking

S. No	Period	Method	History
1	Late 1950	SAGE (Semi – Automatic Ground Environment)	It was used at U.S Military Radar system.
2	1960	SABRE(Semi Automatic Business Research Environment)	At Commercial Airline Reservation system online connected with two main frame computers.
		Packet switching	**Packet switching** was developed by **Paul Baran** and **Donald Devices** to transfer the information between computers and network. **NPL** network (**National Physical Laboratory**) at united kingdom local area network (LAN) using line speed of 768kbit/s was implemented by Davies pioneered
3	1963	Intergalactic Computer network	Intergalactic Computer network was send by J.C.RLicklider to his office colleagues discussing about this concept, a computer network engaged to access communication with users of computers.
4	1965	Telephone switch	At first widely used Telephone switch was introduced by **Western Electric** which implemented true computer control.
