

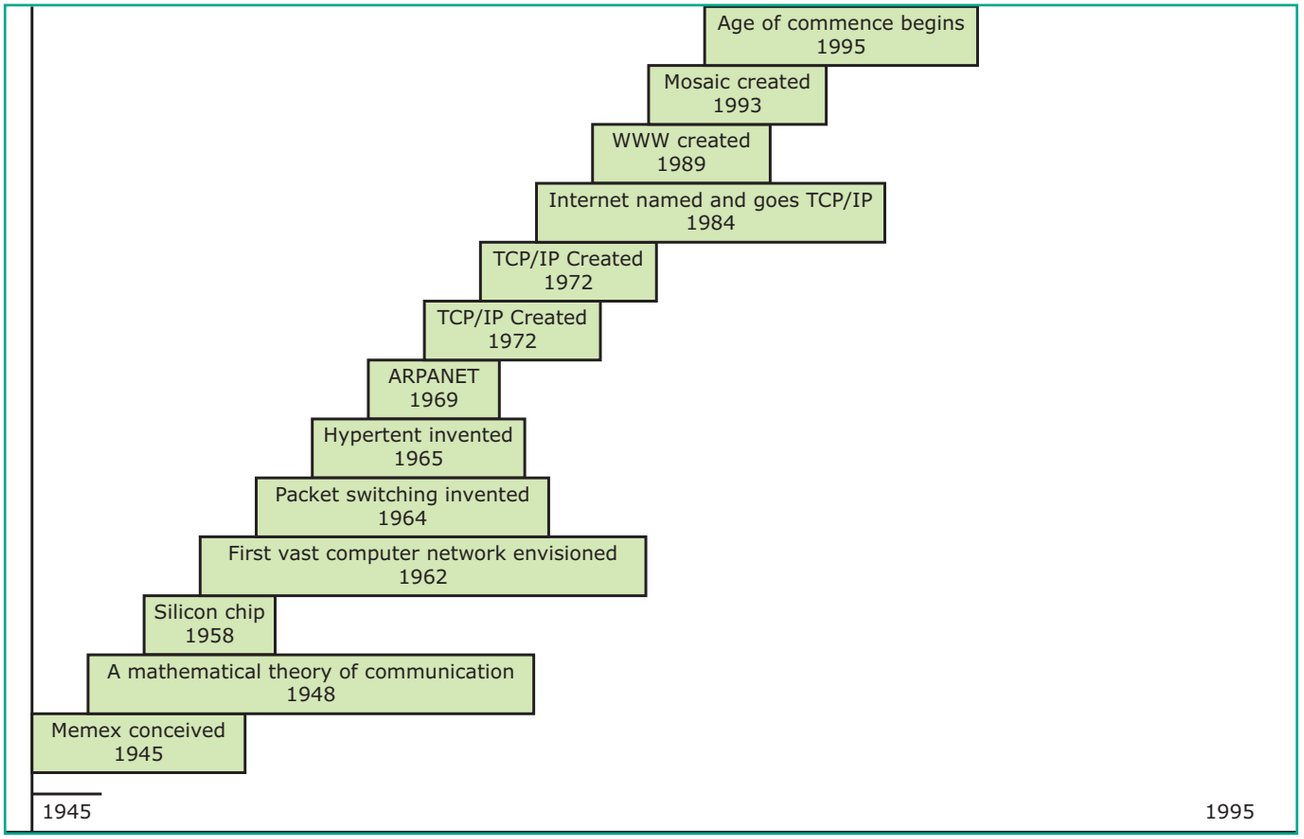

Figure 10.2 **Evolution of Internet**

INTERNET Stands for

- INTERnational NETwork (Technology, telecom, intelligence)
- Internet is a network of networks-A global network.
- Internet stands for Interesting Notions Transmitted Electronically Round Newly Engineered Technology.

Now a days the Internet plays a vital role. It provides all the information and services to us. Earlier days if we want anything, we have to go to market and purchase in person. Nowadays we order anything and everything (food, clothes, stationeries, vegetables…etc.) through online(Internet). Online service providers are Flipkart, Amazon, snap deal etc to buy products via Internet and have the product at door steps. Online payments help in sending and receiving money via payment gateway using this Internet. Refer Figure 10.2 for the Evolution of Internet

e-Governance has made our work easy by providing all government information online easily. As Internet provides its service 24x7 - 365 days, people around the world can access the government websites at their own pace.

Merchandising via Internet helps us get good branded products at offer rates through free delivery service.

Powerful search engine can take us to imaginary concept to our hand with all as a text, audio, video, with briefly and by without moving to library, or taking advice from expert. Current affairs can be updated immediately without any delay. For example on olden days Internet
