2.19.3 Removing Pages

You can remove the unused pages from your document using Remove Pages dialog box.

1. Choose **Layout** > **Remove Pages** in the menu bar. The **Remove Pages** dialog box appears. Refer Figure 2.56 and 2.57

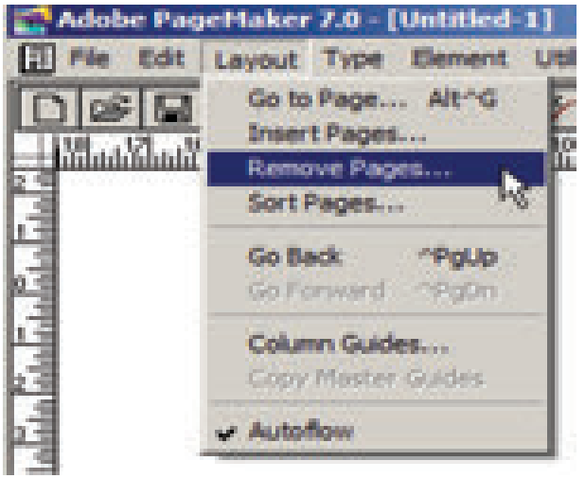

Figure 2.56 Remove pages

2. Type the page range you want to remove.

Figure 2.57 Remove pages settings

3. Click on OK button.

2.20 Master Pages

Any text or object that you place on the master page will appear on all the document pages to which the master is applied. It shortens the amount of time because you don't have to create the same objects repeatedly on subsequent pages.

Master Pages commonly contain repeating logos, page numbers, headers, and footers. They also contain nonprinting layout guides, such as column guides, ruler guides, and margin guides.

A master item cannot be selected on a document page.

You can create, modify, and delete objects on master pages just like any other objects, but you must do so from the master pages themselves.

At the lower left corner of a document (publication) window you can find an icon which represents the master pages. The letters L and R (L denotes left and R denotes right) mark the master page icon for facing pages. A single-sided publication icon is marked by an R alone. Refer Figure 2.58

2.20.1 Inserting Page Numbers in Master Pages

To make page numbers appear on every page

1. Click on Master Pages icon.
2. Then click on Text Tool. Now the cursor changes to I - beam.
3. Then Click on the left Master page where you want to put the page number.
