1. **Overview of Drone Technology**
    - 1.1 Introduction
    - 1.2 The Impact of Drone Technology
        - 1.2.1 Drones in military applications
        - 1.2.2 Commercial and civilian use
        - 1.2.3 Global influence and market growth
    - 1.3 Technological Foundations
        - 1.3.1 Early developments in aerial systems
        - 1.3.2 Breakthroughs in electronics and navigation
        - 1.3.3 Role of artificial intelligence and autonomy
    - 1.4 Generation breakdown
        - 1.4.1 First generation: Manual drones
        - 1.4.2 Second generation: Remote control and GPS integration
        - 1.4.3 Third generation: Surveillance and combat capabilities
        - 1.4.4 Fourth generation: Semi-autonomy and commercial applications
