3.1 Introduction
3.1.1 Definition
3.1.2 Basic characteristics of second generation of drones
3.2 Historical Development of Second-generation Drones
3.3 Principles and Components of Second-generation Drones
3.3.1 Principles of operation
3.3.2 Major components of second-generation drones
3.3.3 System integration and functional operation
3.4 Applications of Second-generation UAV Systems
3.4.1 Military and defense applications
3.4.2 Scientific and environmental applications
3.4.3 Civilian and commercial applications
3.4.4 Communication and technological applications
3.5 Developments and Pioneers of Second-generation Drone Models
3.5.1 Evolution of second-generation UAV development
3.5.2 Key pioneers and notable drone models
3.6 Challenges and Limitations of Second-generation Drones
3.6.1 Technical limitations
3.6.2 Operational and logistical challenges
3.6.3 Strategic and regulatory limitations
3.7 Case Study: Operational Deployment and Impact of Second-generation Drones
3.7.1 Case study 1: Ryan Model 147 “Lightning Bug” – reconnaissance in the Vietnam War (1964–1975)
3.7.2 Case study 2: IAI Scout – real-time intelligence in the Lebanon War (1982)
