Table 4.1 Historical development of third-gene

Year/period	Drone model/system	Developer/country	Key technological features	Prima applic
1995	**RQ-1 Predator**	General Atomics Aeronautical Systems/United States	SATCOM-based control, EO/IR sensors, long endurance, armed capability with AGM-114 Hellflre missiles	Survei reconn precisi
1998	**RQ-4 GlobalHawk**	Northrop Grumman/United States	HALE design, autonomous flight, SAR radar, EO/IR imaging, 36-hour endurance	Strateg reconn intellig gather
2001	**MQ-1 Predator (Armed Variant)**	General Atomics/United States	Equipped with Hellflre missiles, multi-sensor targeting, network-centric operation	Counte precisi targeti
2004	**Heron TP (Eitan)**	Israel Aerospace Industries/Israel	MALE UAV, satellite-linked communication, EO/IR, maritime and border surveillance	Long-(intellig patrol
2005	**MQ-9 Reaper**	General Atomics Aeronautical	Heavier payload, enhanced range	Multi- and co operat
