- **Solid line**: This is a continuous line with uniform thickness throughout its length.
- **Dashed line:** This is a line made up of equal-length dashes with spaces in between.
- **Dotted line:** This type of line has several dots of equal length and equal distance.
- **Double line:** This is a combination of two parallel solid lines separated in between.

Below the **Line** styles, you have the **Color** segment, which allows you to change the **Borderline** color.

You need to click on the drop-down arrow to make a selection from a group of color pellets.
