Using the ribbon, you can move or copy a worksheet

1. To move or copy a worksheet in Excel, you must open the workbook containing the worksheet you want to move or copy.
2. After that, you must click on the worksheet tab on the worksheet you want to relocate or copy.
3. Go to the **Home** tab on the ribbon and click the **Format** button in the **Cells** group on the left side of your screen. In the drop-down menu, click on **Move** or **Copy Sheet**.
