

This will automatically adjust the relative formula **E$2** to **F$2,** yet maintaining the absolute **$D4**.

In other words, in a mixed cell reference, you have a situation where either the row or the column is locked.

If you want the row or the column to remain fixed, place a dollar sign as an anchor.

When done entering the formula in cells **E4** and **F4,** use the mouse to Fill-down by dragging the fill handle after selecting both cells **E4** and **F4.**
