Station 1 | Product Ordered

On the worksheet called **Product Ordered**, let the column heading be **Amount.**

	A	B	C	D	E	F	G
1	Product List	Amount					
2	Chai						
3	Chang						
4	Aniseed Syrup						
5	Chef Anton's Cajun Seasoning						
6	Chef Anton's Gumbo Mix						
7	Grandma's Boysenberry Spread						

Station 1 | Product Ordered

Next, in cell **B2** of the **Product Ordered** Sheet, use the formula below to calculate the **Amount** for each product by referring to the **Unit Cost** and **Quantity** on the **Station 1** sheet.

To do this,
