1. Enter the **equal sign** in cell **B2** of the **Product Ordered** Sheet.

1. With the cursor still in cell **B2** of the **Product Ordered** Sheet, click on the **Solution 1** sheet, click on cell **C2,** press the Multiplication symbol on your keyboard, and then click on cell **D2** on the same worksheet.

   If done correctly, the formula below will appear on the formula bar.

   ='Station 1'!C2*'Station 1'!D2

Note the reference to cells **C2** and **D2** in the **Staton 1** worksheet.
