using the Fill method will make it easier to drag and fill the formula into several ranges of cells.

Next, the formula in cell **F3** is copied and pasted into cells **E4:F8**.

	A	B	C	D	E	F	G
1	STAFF OUT STATION EXPENSES						
2	Name	Item	Cost		Item	Average Cost	
3	Dodsworth Anne	Electricity	50		Electricity	55	
4	Hellung-Larsen Anne	Gas	60		Gas		
5	Freehafer Nancy	Out to Eat	350		Out to Eat		
6	Cencini Andrew	Fuel	120		Fuel		
7	Kotas Jan	Phone Call	75		Phone Call		
8	Fuller Andrew	Vehicel	200		Vehicel		
9	Sergienko Mariya	Electricity	60				

Alternatively, you can use the fill method by dragging the fill handle from cell **F3** to **F8**.

	A	B	C	D	E	F	G
1	STAFF OUT STATION EXPENSES						
2	Name	Item	Cost		Item	Average Cost	
3	Dodsworth Anne	Electricity	50		Electricity	55	
4	Hellung-Larsen Anne	Gas	60		Gas		
5	Freehafer Nancy	Out to Eat	350		Out to Eat		
6	Cencini Andrew	Fuel	120		Fuel		
7	Kotas Jan	Phone Call	75		Phone Call		
8	Fuller Andrew	Vehicel	200		Vehicel		
9	Sergienko Mariya	Electricity	60				
10	Thorpe Steven	Fuel	90				
11	Neipper Michael	Phone Call	75				
12	Zare Robert	Out to Eat	315				
18							
19							

The Final result is the **AVERAGE Cost** computed for each Criterion.
