STDEV	=STDEV(C3:C10, C3:C10>150)	

=STDEV(C3:C10, C3:C10>150)

AssignmentFile *

	A	B	C	D	E	F
1	Strongest Hurricanes Have Hit the U.S.					
2	Name	Year	Windspeed (mph)			
3	Hugo	1989	140			
4	Andrew	1992	165			
5	Charley	2004	150		MODE	150
6	Harvey	2017	130		STDEV	12.95
7	Irma	2017	130			
8	Michael	2018	161			
9	Laura	2020	150			
10	Ida	2021	150			

Aside from the STDEV function, Excel also has a function called **STDEVP** that calculates the standard deviation of a population.

=STDEVP(C3:C10)

4	And.	1992				
5	Charley	2004	150		MODE	150
6	Harvey	2017	130		STDEVP	12.114
7	Irma	2017	130			
8	Michael	2018	161			
9	Laura	2020	150			
10	Ida	2021	150
