

	A	B	C	D	E
1	**Set 1**	**Set 2**	**Correlation**		
2	2	2	**1**		
3	4	3			
4	6	4			
5	8	5			
6	10	6			
7					

The Correlation Function returns the value **1** as the correlation coefficient between the two data sets. A value 1, or the closer it is to **1**, indicates a perfect positive linear correlation between two variables, meaning as one variable increases, so does the other.
