- **F10** is the cell used to enter the data you want to look for.
- **A4:A11** is the cell range containing the data from which the search will be done.
- **C4:C11** is the value to be returned that relates to the data being searched for.

When one of the students' names is entered into cell **F10**, the score is displayed automatically in cell **F11**.

It is necessary to determine the kind of lookup needed to select the suitable formula for a particular context. Here are formulas for the most commonly used Lookups.

- VLOOKUP (Vertical Lookup)
- HLOOKUP (Horizontal Lookup)
- INDEX-MATCH
- INDEX-MATCH-MATCH
