As you can see, the value in cell **G5** is located on the 4th row within the cell range **B2:B8.**

When the third argument is set to 0, the MATCH function searches for an exact match. To look for an approximate value, you will need to first sort your data in ascending order then set the third argument to **1.**

	A	B	C	D	E	F	G
1	Product ID	Product Name	Sales	Unit in Stock			
2	1	Aspire 3	$ 18,000.00	0			
3	2	MacBook Pro	$ 20,000.00	120			
4	3	IdeaPad	$ 23,500.00	17			
5	4	Inspiron 3567	$ 30,000.00	15		Sales	$29,500.00
6	5	Surface Laptop	$ 31,100.00	13		Location	3
7	6	iPhone	$ 35,000.00	39			
8	7	EliteBook	$ 54,000.00	53			
9							

With the data **sorted** in ascending order, the MATCH function searches for the position of the value in cell **G5,** by using the largest value (**$30,000**) that is less than or equal to the lookup value.
