WORKING WITH EXCEL SMARTART

SmartArt is an excellent tool for organizing and categorizing data, making it simple for anyone looking at your data to understand the information flow. With various options, including hierarchies and cycles, you may tailor the tools to the particular needs of any presentation.

Select the data you want to show visually to start with SmartArt, and then click "**SmartArt**" under the "**Insert**" tab.

You will see a category of options, like hierarchies, processes, and cycles.
