

1. Allows you to select the location where you want to save your Excel file in.
2. **File name** is where you insert the name you want to give to the Excel workbook.
3. Save As type allows you to select the file type in which you want to save the Workbook. Here, you can save your file as a PDF.
4. When done, you click the **Save** button to complete the process.

Your Excel file, when saved, is issued a **.xlsx** or **.xls** extension as its file type.
