will collapse, making it difficult to see the bar.

	A	B	C
1	Months	(All)	
2	Date	(All)	
3	Product	(All)	
4			
5	**Row Labels**	**Sum of Sales**	
6	Donald Leo	172.25	
7	Jacob Sarah	15.18	
8	James Cathy	8.04	
9	James Katthy	20	
10	James Sarah	76.08	
11	Joe Collins	188.22	
12	Leo Jean	23.07	
13	Marga Mary	55.09	
14	Paul Giampietro	16.26	

Excel's default setting for PivotTables is to have dynamic column width, which is the reason behind this.

To make the column width static, go to the **PivotTable Analyze** bar on the ribbon, click on the **Options** button in the **PivotTable** group to the right of your screen, and click on the drop-down arrow. Then click on **Options**.
