

To return the Status bar to Ready mode, press the Enter key on your keyboard after finishing typing. If you need to interrupt your typing, you can do so by pressing the **Esc** key to erase the content.

NOTE: If you click on a cell containing data and start typing, the new input will replace the existing data once you press the **Enter** key. Therefore, it's crucial to be careful and keep track of the active cell's location to prevent accidentally modifying your data.
