

3. Click on the position where you want to position the button.
4. Once you release the control button in the worksheet, the *Assign* command and the *Macro* dialog box will be open.
5. Select the macro you want to assign to the button and click *OK*. Subsequently, the button will execute the macro each time it is clicked.

INSERTING A MACRO ON THE QUICK ACCESS TOOLBAR

If you need it, you can assign a macro not only to a module control in a worksheet, but also to a button in Excel's *Quick Access toolbar*. To do so, follow these steps:

1. Right-click on the *Quick Access toolbar* and select *Customize Quick Access Toolbar* or *Other Commands*.
2. A dialog box will open. *Select* the item *Quick Access Toolbar*.
3. In the drop-down list, select *Choose* commands from and select *Macro*.
4. Select the macro you want to add and finally click the *Add* button.
5. Edit the icon by clicking the *Edit* button

EXAMPLES OF MACROS AT WORK

In this section, we will explore various ideas and tips for integrating macros
