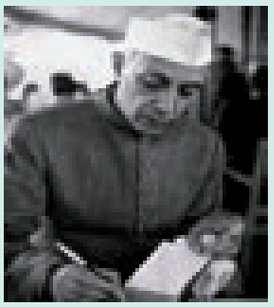
Nehru's letter to Chief Ministers on Nationalism. In 1953, after the success of Everest Expedition



"The final ascent of Everest has been a great achievement in which all of us should take pride. Here again there has been great pettiness and the narrowest type of nationalism shown by some people.

Controversies have arisen as to whether Tenzing got there first or Hillary, and whether Tenzing is an Indian national or a Nepalese national. It does not make the slightest difference ... Neither could have done so without the help of the other.

Indeed, both of them could not have done so without the help of the whole party, ... and the whole party could not have done so without the accumulated experience, labour and sacrifice of all their predecessors who tried to reach the top of Everest.

Great human achievements are always the result of combined endeavours in which numerous people take part. It may be that one person takes the last step, but the other persons also count and should not be forgotten.

For us to show a narrow and deplorable nationalism in such matters is not to add to the credit of our country but to lead people to think that we are petty in outlook and suffering from some kind of inferiority complex."

Wars with China and Pakistan added to economic miseries. Nationalisation of bank by Indira Gandhi, electronic revolutions introduced by Rajiv Gandhi did contribute to some positive changes. By 1990, India had come forward to adopt market oriented new economic policy, thus opening india to LPG (Liberalisation Privatisation and Globalisation)

Agriculture: The agriculture sector has been declining since the mid-1990s.There were several farmers suicides since 1990 and the export-oriented agriculture has ruined the farmers especially the cotton growing farmers in the Vidarbha region of Maharashtra.

India's agriculture sector, which houses more than 60 percent of the people, has grown at a rate of 1.65 percent between 1996/97 and 2004/05. This is cause for concern as it may produce India's second agrarian crisis. (The first one was at the beginning of the 1960s) Subsidies to the rich and middle-income farmers like free power, price supports, free water, and free fertilizer have not been reduced but a public investment that uplifts all has come down.

US$15 billion loan waiver for farmers announced in the populist Union budget of 2008/09 will not affect the majority of the marginal farmers. 80 percent of the marginal farmers do not have access to
