tenant and worker, and opportunity to different sections of the rural population. With these guidelines provided by the Planning Commission, the State govts. adopted certain measures, viz., regulation of rents, security of tenure and conferment of ownership on tenants.

(d) Co-operative Farming

The fourth attempt was Co-operative farming where farmers take the land for lease and pool the resources to make a collective attempt to farm and the profit will be equally divided after settling the rent and expenses. Until late 1960's, a total of 7294 cooperative farming societies having a membership of 1.88 lakhs had been formed and these covered an area of 3.93 lakh hectares. However, many of these societies were defunct and some existed only on paper for the sake of obtaining state grants though their land was cultivated in the old way. In these, there was neither the pooling of resources nor joint operation of land. A number of these were formed with a desire to evade land reforms measures in various states.

Indian Union Co-operative Act- 1904

On the basis of Indian Union Co -operative Act, 1904, the Madras State Co-operative Act, was enacted. This act was further strengthened after independence. The Co-operative organizations functions in three ways such as Co-operative Banks, Land Development Banks, Co-operative Societies. Co-operative organizations functioning in Tamil Nadu, apart from Agriculture, includes various hand craft industries like Cotton weaving, silk weaving and pottery. Tamil Nadu currently has more than 10, 000 Co-operative Societies.

Land Bill: Six facts you need to know

1. The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Amendment) Bill, 2015 seeks to Amend the Act of 2013 (LARR Act, 2013).
2. The Bill creates five special categories of land use: 1. defence, 2. rural infrastructure, 3. affordable housing, 4. industrial corridors, and 5. infrastructure projects including Public Private Partnership (PPP) projects where the central government owns the land.
3. The Bill exempts the five categories from provisions of the LARR Act, 2013 which requires the consent of 80 per cent of land owners to be obtained for private projects and that of 70 per cent of land owners for PPP projects.
4. The Bill allows exemption for projects in these five categories from requiring Social Impact Assessment be done to identify those affected and from the restrictions on the acquisition of irrigated multi-cropped land imposed by LARR Act 2013.
5. The Bill brings provisions for compensation, rehabilitation, and resettlement under other related Acts such as the National Highways Act and the Railways Act in consonance with the LARR Act.
6. The Bill changes acquisition of land for private companies mentioned in LARR Act, 2013 to acquisition for 'private entities'. A private entity could include companies, corporations and nonprofit organisations.
