In November 2016, Prime Minister Modi paid an official visit to Japan and had a summit meeting with Prime Minister Abe. Prime Minister Abe stated that this summit would lead the prosperity and stability of the Indo-Pacific region as a result of coordinating the "Free and Open India and Pacific Strategy" and the "Act East" policy.

Japan expects India for improving the business environment, including the easing of regulations and the stabilization of the system. India established the "Japan Plus" office in the Ministry of Commerce and Industry in October 2014 as a "one-stop" location for resolving problems faced by Japanese companies. Japan and India agreed to set up 11 candidates of Japanese industrial townships around DMIC and CBIC areas in April 2015. Prime Minister Abe requested India's early decision on introducing special incentive packages in Japanese industrial townships in December 2015 and November 2016.

India decided to introduce the Shinkansen system in December 2015, when Prime Minister Abe visited India. The Japan's Shinkansen system is the highest class of High-Speed Railway systems around the world in terms of its safety and accuracy. Japan and India confirmed that the general consultant would start its work in December 2016 with the construction work to begin in 2018, and the railway operation would commence in 2023.

India has been the largest recipient of Japanese ODA loan in the past decades. Delhi Metro is one of the most successful examples of Japanese cooperation through the utilization of ODA.

India's primary exports to Japan have been petroleum products, chemicals, elements, compounds, non-metallic mineral ware, fish and fish preparations, metalliferous ores and scrap, clothing and accessories, iron and steel products, textile yarn, fabrics and machinery etc. India's primary imports from Japan are machinery, transport equipment, iron and steel, electronic goods, organic chemicals, machine tools, etc. Japanese FDI into India has mainly been in automobile, electrical equipment, telecommunications, chemical and pharmaceutical sectors.

In terms of human resource development in the manufacturing sector in India, Japan announced its cooperation of training 30,000 Indian people over next 10 years in the Japan-India Institute for Manufacturing (JIM), providing Japanese style manufacturing skills and practices, in an effort to enhance India's manufacturing industry base and contribute to "Make in India" and "Skill India" Initiatives. JIM and the Japanese Endowed Courses (JEC) in engineering colleges will be designated by Japanese companies in India, and this is a good example of cooperation between the public and private sectors. In summer 2017, the first four JIMs started in the States of Gujarat, Karnataka, Rajasthan and Tamil Nadu, and the first JEC was established in the State of Andhra Pradesh. Since then, four more JIMs and one JEC have started. Those institutes are also expected to give more Indian students the ambition to study the Japanese language.

Cultural Relations

The year 2012 marked the 60th anniversary of the establishment of diplomatic relations between Japan and India. Various cultural events took place both in Japan and in India to promote mutual understanding between the two
