d) Foreign Direct Investment (FDI): This opened the vistas of foreign capital flow, by allowing overseas companies to invest directly into the Indian market. In 2018, the Government of India allowed 100% FDI in some sectors like single-brand retail and construction.

e) Abolition of MRTP Act: In pursuance of liberalisation, the Monopolies and Restrictive Trade Practices (MRTP) Act (1969), which regulates monopolistic, restrictive and unfair trade practices, was abolished by the Government of India. It was replaced the Competition Act in 2002, which introduced a new focus of promoting competition instead of anti-monopoly measures.

List of industries which mandatorily require licensing are as follows:

- Distillation and brewing of alcoholic drinks.
- Cigars and Cigarettes of tobacco and manufactured tobacco substitutes.
- Electronic Aerospace and Defence equipment: all types.
- Industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches.
- Hazardous chemicals.
- Drugs and Pharmaceuticals.

Activity

1. Students are requested get some insight on the presence status of Globalisation, concerns of world and India with regard to Globalisation.
2. Students are requested understand the importance of World Trade Organisation (WTO) in the context of Globalisation.
3. Analysis the world Trade scenario in context of World Trade War (WTW).

Glossary

- **Abatement:** Reducing the degree or intensity of, or eliminating, pollution.
- **Air Quality:** A measure of the level of pollution in the air.
- **Biodiversity:** The variety of life on this planet and how it interacts within habitats and ecosystems. Biodiversity covers all plants, animals and micro-organisms on land and in water.
- **Biomass:** All the living material in a given area; often refers to vegetation.
- **Carbon Credit:** A unit of carbon dioxide bought to reduce greenhouse gas emissions.
- **Ecosystem:** The interacting system of a biological community and its nonliving environmental surroundings.
- **Environment:** The sum of all external conditions affecting the life, development, and survival of an organism.
- **Environmental Impact Statement:** A statement about the expected effects on the environment of a proposed project or development such as a new road or waste water treatment plant, including how any severe effects on the environment will be addressed.
- **Greenhouse Effect:** The warming of the Earth's atmosphere caused by a build-up of carbon dioxide or other trace gases; many scientists believe that this build up allows light from the sun's rays to heat the Earth but prevents a counterbalancing loss of heat.
- **Radioactive:** A material is said to be radioactive if it emits radiation.
- **Reforestation:** The process of planting trees in forest lands to replace those that have been cut down.
