POINTS TO REMEMBER

- The if statement contains boolean expression inside brackets followed by a single or multi line code block.
- if-else Statement also provides for a second part to the if statement, that is else. The else statement must follow if or else if statement.

GLOSSARY

Conditional Statements	It performs different actions for different decisions in programing language
IF else Statement	The If Statement is a way to make decisions based upon the result of a condition.
Switch Statement	Switch statement work the same as if else if statement as they can check for multiple values at a time

EVALUATION

EBF8PA

Part - I
